

Advantage West Midlands

The Regional Development Agency (RDA) for the West Midlands Region

Regional Low Carbon Projects

Gareth Stanley
Environmental
Technologies Cluster
Manager

Leading the
West Midlands
towards greater
economic prosperity

www.advantagewm.co.uk

Priorities of Projects

- Developing supply chains
- Fostering innovation
- Market linkage
- Skills development
- Connecting business and knowledge base

Renewable Energy Supply Chain Opportunities (RESCO)

- Supply Chain Development
- Market Intelligence
- Networks
- Market Entry Support

Skills for Energy Futures

The Power Academy

- Training technicians for the new energy generation technologies, with a focus on turbines and carbon friendly power generation.

Science City II- Energy Efficiency

Birmingham Science City

Questions?

- Are these projects focussing on the correct areas/is there anything missing?
- How can we build upon these projects?
- How could we exploit them better /improve them?
- How could we increase impact & critical mass – eg usefully engage more businesses and partners?
